

Oracle Accelerate Enablers for Chemicals Solution

- Oracle Process Manufacturing uses precise, recipe-based manufacturing techniques to help organisations formulate its products to individual customer specifications, manage variability, optimize capacity, and drive continuous process improvement which is a fundamental driver for creating a Lean Enterprise
- Gain strategic advantage and make informed business decisions with immediate access to accurate information in a single database
- Boost productivity, cut costs and increase revenues through operational efficiency, process automation and enterprise integration
- Improve quality, reduce risk and quickly transform your business for increased time-to-benefit

Oracle Accelerate

Oracle Accelerate brings comprehensive, easy-to-own, industry-focused applications to mid-size businesses.

Key to Oracle Accelerate is the availability of application bundles that can be quickly implemented and that provide a wide range of industry-specific functionality.

To be eligible to deliver an Oracle Accelerate solution, a partner must be a member of the Oracle PartnerNetwork at the Certified or Certified Advantage Partner level. With Oracle Accelerate solutions, partners are providing to customers solutions that are easy to own with industry best practices, giving them the choices they need for today and tomorrow.
