

# SAGE ACCOUNTING SOFTWARE FEATURES

As a market leader, Sage provides several products designed to deliver a plethora of benefits. But how do you know which one is right for your business?

We've devised this snapshot of Sage's core products to highlight the main features and functionality - from integration and customisation, to reporting and data analysis.

Using a gold, silver and bronze rating, the following is designed to allow companies to get an idea of where to start the conversation with their chosen consultancy partner. Additional capabilities can be added to those marked with an \* through the addition of Sage certified business apps.

Functionality	SAGE 50	SAGE 200	SAGE INTACCT	SAGE X3
 <b>Integration</b> Seamless integration with existing systems and other cloud-based applications to provide a single source of business data.			Gold	Gold
