

PURCHASING

Take control with automated procure-to-pay processes.

Use Sage Intacct Purchasing to create structured, predefined transaction and approval workflows that increase purchasing speed, accuracy, and efficiency. At the same time, the solution's comprehensive suite of dashboards and reporting tools enables you to monitor budget vs. actuals, analyse costs, and gain visibility into your entire procure-to-pay cycle. That's purchasing, perfected.

KEY BENEFITS

Streamline procurements and payments

Sage Intacct Purchasing automates your organisation's unique workflows to streamline purchase requisitions, purchase orders, and approvals. It connects with Sage Intacct Accounts Payable, Cash Management, and Inventory Management - so you enter data only once - and enables you to attach files with drag-and-drop simplicity for easier record keeping and instant access to supporting documents.

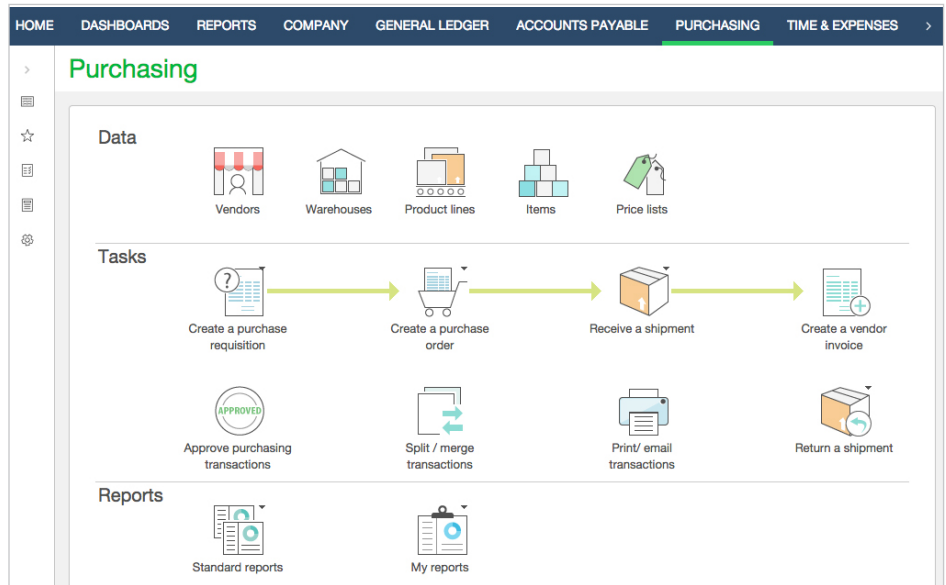

Improve visibility

Give your purchasing team at-a-glance access to critical, real-time information, so staff can focus on making the right decisions. Use customizable, role-based dashboards - which appear as soon as you open the application - to quickly check on budget to actuals, competitive quotes, price breaks, and more.

Strengthen purchasing controls

Take control of your entire procure-to-pay process. Sage Intacct Purchasing provides best practices templates to help ensure everyone complies with your purchasing requirements. Use these templates to create standard workflows and approvals for requisitions, quotes, returns, and more. Better still, you can customize them to suit your organization's unique needs.

Quickly access specific purchasing tasks or data using visual navigation.

KEY FEATURES

Automation and efficiency

Online access to all relevant information

Get the right information, right away.

Integration with other Sage Intacct modules

Eliminate data re-entry and accelerate processes.

Drag-and-drop document attachment

Cut down on paper to boost productivity.

Automated processes and structured workflow

Ensure accuracy and streamline operations.
