 DATASHEET

SAGE INTACCT INTELLIGENT TIME

Re-imagine your staff timesheet system with AI-powered time tracking and timesheet software, built into Sage Intacct. Get accurate, real-time insights to profitably manage your projects.

Project-based industries are constantly faced with challenges of revenue leakage, low utilisation, and strained project profit. Accurate and complete time entry is a major contributing factor to these struggles.

Sage Intelligent Time is the only AI-powered time entry system built into a full featured ERP solution. It provides each member of your team with an AI-powered time assistant that suggests time entry cards based on that employee's calendar, email, and other activity. Using machine learning, the Time Assistant gets smarter and continuously improves the speed and accuracy of your teams' timesheets.

WHY CHOOSE SAGE INTACCT?

- Save time, move fast
- Always trust the numbers
- Collaborate in real-time
- See the full financial picture
- Automate & streamline processes
- Complete integration
- Future-proof performance

MUST HAVE FINANCE FEATURES

Recover up to £10,000 in billable time per year

Manage the profitability of your service business with AI-powered time tracking software built into Sage Intacct, and our employee time tracking app. Stay on top of productivity, attendance, unplanned activities, and more.

- Use AI to reconstruct work week and recapture forgotten billable time
- Recover up to £10,000 in annual billable time per employee typically lost to human error
- Get accurate project costing to improve estimates of future projects

Free your team with smart time entry

Help your professional staff submit time with confidence. Sage Intelligent Time time tracking and employee scheduling software auto-alerts your team of late or rejected time entry. The Time Assistant keeps your timesheet system accurate even if time entry is delayed by a week or more.

- Increase cash flow with faster billing cycles and accurate invoices
- Eliminate reconciliation issues you get with disconnected time entry systems
- Save time for your finance

Time entry from anywhere

Enter time anytime, anywhere with our employee time tracking app. The personal time assistant reconstructs the work week for you. Simply review and submit – from any connected device.

- Mobile app available for most Android and iPhones - perfect for professionals on the go
- Time entry and approval capabilities encourage high productivity for busy teams
- Easy-to-use timesheets help to drive faster, accurate time entry

Maintain trust with privacy first

Our time tracking and timesheet software helps you comply with privacy regulations and policies to maintain user trust. Users control their own data - no one sees their data but them.

- Users can set data sources and working hours for data capture
- Users can turn off time assistant at any time
- Time is only summarised in the timesheet
- The user approves all time entries before submitting
- Administrators set company-wide policies for time and project data retention

SAGE INTACCT BENEFITS

Accurate Project Costing

With an accurate understanding of your project costs, you can make better decisions about additional unplanned work.

True Project Profit

Estimating future work is driven from past work. With accurate time entry you can bid smarter for future work with better insights to protect profitability.

Utilisation

Capturing all billable work helps your employees and leadership team truly understand how much value the team is providing.

Resource Staffing

Knowing the true time spent on projects helps your leaders know how many resources they need based on projected workflows.
